

## Weatherization Program Participating Contractors

The contractors on this list participate in the NSTAR Gas Weatherization Program.

In order to participate in the NSTAR Gas Weatherization Program you must:

- Heat with NSTAR Gas.
- Have an active NSTAR Gas account.
- Occupy a 1 to 4 family home.
- Upgrade existing insulation.

Insulation work associated with new construction, additions, renovations or any other projects where weatherization work is required to be completed in order to meet state or local codes are not eligible for the NSTAR Gas Weatherization Program rebates. Other restrictions may apply.

Please call 800-266-3517 before finalizing work with a contractor to confirm the contractor is still participating in the program. Please note, NSTAR Gas does not endorse, guarantee or warranty any particular contractor, manufacturer or product.

If you do not meet the NSTAR Gas Weatherization Program guidelines, you may still be eligible for insulation rebates of 75 percent up to \$2,000. Insulation rebates are also available for NSTAR Electric customers. For more information, please visit the "For Your Home" section of [www.masssave.com](http://www.masssave.com) or call 866-527-7283.
